Used trucks from STILL

Quality assured

It is clear from STILL's used truck classification system - Gold, Silver or Bronze - how attractive used trucks can be.

This is a uniform, Europe-wide system that categorises used trucks in accordance with their features - equipment, warranty, paint (i.e. visual apperance), truck age and battery condition.

So you see, used trucks can be a very attractive proposition when they come with the STILL seal of approval: tested and reliable technology, fair prices and a clearly defined classification system.
